## 'BLONDES CONTINUE TO PLAY AN IMPORTANT ROLE IN THE BEEF INDUSTRY'

*With the exception of 'Pick of the Herd' which speaks for itself, I haven't flagged any sale features -- it was impossible. I found a sale feature on every page. The quality of young breeding stock is unbelievable!*

Fellow breeders, farmers, cattlemen, ladies & gentlemen:

On behalf of the Ontario Blonde d'Aquitaine Association, we welcome you to our 9<sup>th</sup> Annual Cream of the Crop Sale. CSM is proud to be involved with the marketing of such a high quality Blonde d'Aquitaine seed-stock sale.

This year we offer the largest selection of quality, young, bulls that we have had the pleasure of cataloguing in a long, long time. Fancy heifer calf show prospects and replacement females, a limited number of cow/calf pairs, and some top quality bred replacement cows & heifers.

Wow! How explosive – what a stacked sale! Each and every consignor had the desire to make this the best association sale ever. Again, I would rate this sale as 'above average' to most herd dispersals. Unbelievable quality. I know that the fat and stocker market right now is all doom and gloom, I believe that we have hit 'bottom'. *What an opportune time to improve the herd before prices start back up. A perfect sale for the serious breeder – no shortage of quality!* Tons and tons of reasonable priced feed out there this year with all the moisture in Ontario – a good time to invest!

The Ontario Blonde d'Aquitaine Association Board of Directors, Sale Committee, and Committee Chairman have spent endless hours to assure that you, the buying public have an opportunity to add quality seedstock to your herds. They are to be commended! Congratulations !!

For those shopping for herd bulls, you best mark this date on your calendar and attend – an unbelievable selection awaits you! The female offering is just explosive – so exciting! Come early and meet the consignors, they will be pleased to answer any questions that you may have concerning their cattle. Join them after the sale for refreshments and socializing.

We thank our consignors for their exceptional selections! We thank you for attending, and wish our successful bidders well with your purchases which will be cared for until trucking arrangements can be made.

If you have any questions, or need more information concerning the cattle, transportation or accommodation, please contact CSM. We would be pleased to be of assistance to you. Order bids welcomed and handled in the strictest of confidence by CSM or the auctioneer.

*PS: please make note of the sale time - a 4:00 p.m. start!*

Dave & Sheila McNeven

Note: Calves under 150 days will sell with their mother unless announced from the block.

*If every person in attendance buys just one animal... one lot, we will have a great sale!*

Birth wt. 84 lbs. A Reinhart son, a bull that was purchased here at the '06 Cream of the Crop Sale by Elmbend Farms, Gary Young, Peterborough for \$5500. Off of a Herdsman dam, a real top producing Westwind cow, that Sheldon purchased at a Pick o' the West Sale. Last year Ultimates mother produced Sheldon's top show heifer, Tails, who ran the show circuit undefeated. Ultimate has been shown at Orono, and Warkworth fairs, is scheduled for Lindsay and entered in the Canadian National Show in Victoriaville Quebec. Sheldon retains show rights until after the National Show at which time he will be returned for delivery to the new owner. Just a late July yearling, that has successfully settled half a dozen heifers. Quite a meat machine here, with lots of depth and spring of rib. Service sire to Lot 22.

Birth wt. 100 lbs. We purchased Labi from Floyd and Sheryl Blackburn at the second "Cream of the Crop" Sale in 2002 as a bred heifer. She has been a great addition to our herd, raising an above average calf every year. We have retained many of her daughters in the herd. Check out the job she is doing on a July heifer calf out of Maple Valley Logistic. A pair that will go to work in any herd. Labi has been exposed to our new polled fullblood herdsire Knox Ultimate 4U R18178(P).

Talya is an exceptional 2 year old that we already regret selling. She is halter broke and has been shown successfully as a calf and yearling. We decided to hold Tayla back to be bred A.I. for January calving to Roseneath William. She has been preg-checked to this April 21st date. This is an animal that you definitely do not want to pass up. Please note an error on the birth date on her registration from March 6th to June 3rd that CLRC has said they will correct once the transfer is made. (03-06 vs 06-03).

When we purchased Lorelei at the 2004 Cream of the Crop Sale Matt Unger said she was from the heart of his herd. She has proved herself every year, this time she made her twin! Gabe is just like her Mom – sometimes we even mix them up. She has great depth and soundness, excellent legs and a charm to work with. Your only problem will be you'll fall in love with her. She is safe to the Blue Jay; with this combination it offers unlimited opportunities for the calf in January 2010.
